

SIQ is a specialized laboratory for calibration of measuring and generating equipment used in power plants.

SIQ provides quality services, short lead times and competitive prices. We are located in Slovenia (HQ), Germany, Italy and Serbia.

WE OFFER

calibration services according to ISO 17025.

Electrical measuring devices

- Power quality analyzers
- Insulation resistance testers
- High-voltage testers
- RCD testers
- Micro-Ohmmeters
- Cable condition testers
- Digital multimeters
- Oscilloscopes and probes
- LCR meters
- Network data acquisition units (scanners, multiplexers)
- Shunt resistors
- Frequency counters
- Standard thermometers

Electrical generating devices

- Circuit breaker testers
- Multifunction calibrators
- Arbitrary waveform generators
- Current amplifiers
- DC and AC current sources
- Resistance standards
- Programmable current sources

Acoustics and vibration

- Portable vibration calibrators
- Portable vibration meters
- Accelerometers
- Charge amplifiers
- Sound level meters

Calibration is also possible on-site. We will be happy to plan calibration dates in accordance with your QMS requirements. We can also organize a pick-up service. More information about our calibration services can be found on [SIQ webpage](http://www.siq.si).

Looking forward to your inquiry.
