

# PECB ISO 22301 Foundation

Accredited by ANAB

Become familiar with the best practices of business continuity management system based on ISO 22301

### Why should you attend?

This training course is designed to help participants understand the fundamental concepts and principles of a business continuity management system (BCMS) based on ISO 22301. By attending this training course, participants will learn more about the structure and requirements of the standard including the BCMS policy, the top management’s commitment, internal audit, management review, and continual improvement process.

After attending the training course, you can sit for the exam and, if you successfully pass it, you can apply for the “PECB Certificate Holder in ISO 22301 Foundation” credential. A PECB Foundation certificate shows that you have knowledge on the fundamental concepts, principles, methodologies, requirements, framework, and management approach used in business continuity.
